Kirker's all new BLACK DIAMOND system starts with this versatile Low-VOC Primer. Mixed 4:1 with Universal Low-VOC Activators, it's a High-Build 2K Urethane Primer Surfacer with exceptional filling qualities and easy sandability. Mixed 4:1:1 with the same Activator and Low-VOC Reducer, it becomes a premium Wet-on-Wet Urethane Primer Sealer. Providing excellent color and gloss holdout for a variety of topcoats.

This advanced Low-VOC Urethane Primer resists sand scratch swelling, dries quickly and features excellent flexibility. May be used over DTM primers, existing finishes, body filler, factory e-Coat, fiberglass and even some bare metals (properly prepped).

Refer to Technical Data Sheet (available online) for more specific mixing and application directions.
